

flexible★love®

A photograph of a woman and a man sitting at a wooden table outdoors, eating and drinking. The woman is on the left, smiling, and the man is on the right, looking towards the camera. The table is set with a bottle of olive oil, a croissant, lemons, and various dishes. The background is a blurred outdoor setting with wooden structures and greenery.

Hello, There

At FlexibleLove,

You're not
the most important.....

It Is Community,

whatever dimensions and characteristics, and your relationship with it, that are closest to our hearts. Well, your butts too.

We love to ask

“WHY NOT ?”

This strong curiosity, back in 2005, led us to the creation of first FlexibleLove chairs. Why not use paper to make furniture - we ask ourselves, fascinated by the beauty, flexibility, and incredible durability of paper honeycomb structure. Why not use recycled cardboard paper and recycled wood fiber? As if the first idea isn't mad enough.

later on

we came up with our first-ever original

EARTH

MARBLE

that is good at
stealing attention

a limited edition for
unlimited seating

And here we are,

seating friends, families, lovers, and
teammates all over the world.

We guess this makes us a furniture

where curiosity will take us beyond
this point.

We'll keep you posted.

But hey,
you must share with your community !
